2015/1921/P	J Simons	32 Birchington Road London NW64LJ	27/04/2015 17:54:20	OBJ	I wish to object on the grounds of noise nuisance chiefly, but also traffic and parking issues. I work from home directly opposite and so will be directly affected by the noise and vibrations this will create. There is so much noise from building work around here already that I regularly have to work with all the windows closed, which is unbearable in summer. It was bad enough having to endure 18 months of hell with Conway House being razed to the ground and rebuilt without this even closer to me. I suffer with chronic headaches and this will only add to my pain. But you ignored residents' objections to Conway House so I don't know why I'm even bothering to write this as you will probably ignore this as well.
