

# SURESPAN

## SRHP/TB Specification

SURESPAN **SRHP/TB** thermally broken single leaf roof hatch clear opening size ... x ... complete with gas spring assisted opening to ensure the minimum of effort to open the double skinned aluminium lid. The lid is filled with CFC and HCFC free insulation with a U-Value of 0.43W/m<sup>2</sup>K to BS3958: Part 5: 1986. This offers a high level of thermal insulation, together with excellent sound absorption properties. The lid is supported by heavy duty aluminium hinges and features an integral 'wrap over' edge. The upstand has a purpose made flashing to accept the roof felt (supplied by others and fitted under manufacturers instructions) flush to exterior insulation.

The hatch also incorporates a safety hold open stay to prevent against accidental closure. The lid is held shut by a heavy duty stainless steel cab lock and in the interest of security can only be opened from the inside. Other options are available, see locking options on web site.

The roof hatch is internally powder coated white external polyester powder coated to any standard RAL colour is also available.
