Your comments:

I Strongly object to the application as this totally invades my privacy 30 yards or less a room built at back of the garden would mean everytime I look out of the window or open it for flat mates they can see into my property as I would not want to feel like I am being nosy by looking out as I suffer from M.E. I do use the window at the back of town, next door have done the same as I watch this client to from property it is NOT fair - invades privacy. Thankyou [REDACTED]

Fr to near my living room ' 30 yards!!

I would dearly like you to visit me too

be very close to my living space!!! I am
also concerned as he had parties in the past
it would become noisy with guests around.
My main concern is it is too close to my

living space. Thankyou Beverley Gardner
