

**Design and Access statement for Sweaty Betty, 35 Heath Street**

**Application reference: 2014/7869/P**

**Existing Building**

- Existing building sweaty betty retail shop

**Design Concept**

- New A/C units to be installed

**Intended use of Development**

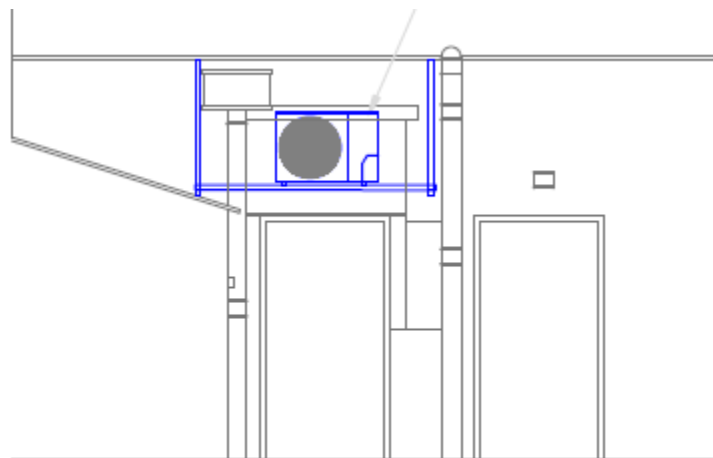

- As existing retail shop

**Layout**

- Layout is as existing with new A/C units

**Location**

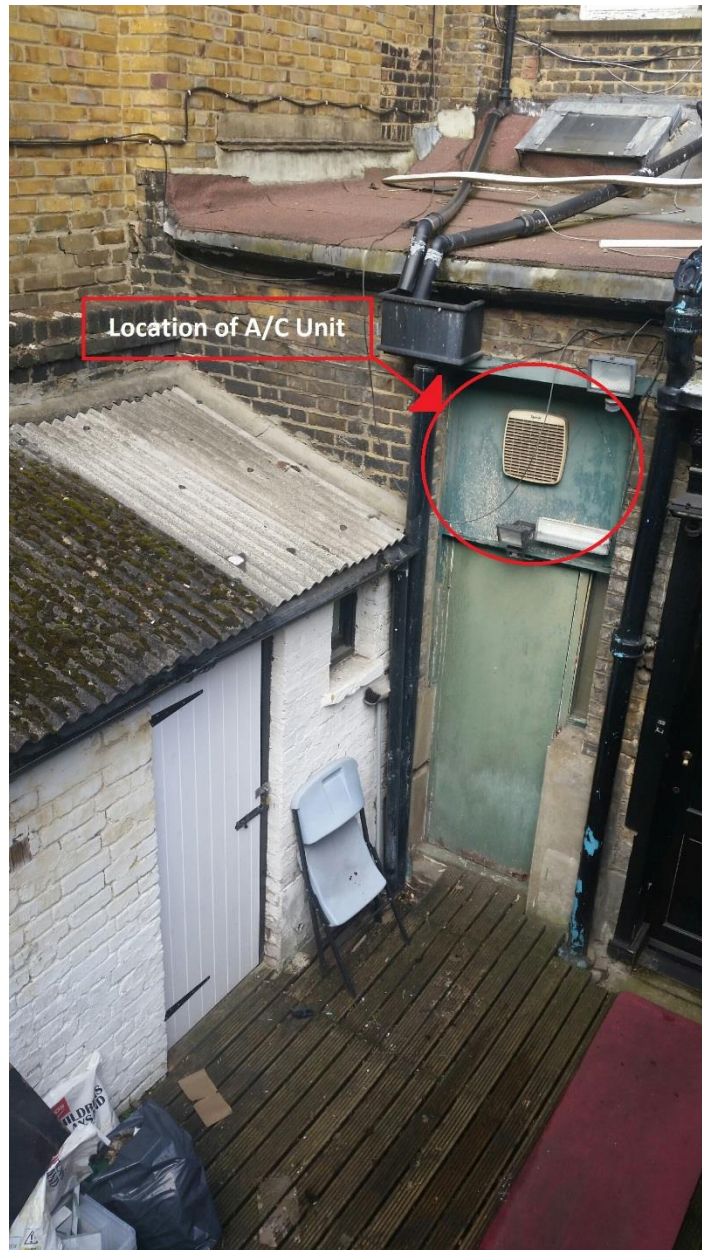

- A/C condenser unit fixed to above door rear door as shown in drawing supplied below.
- A/C Condenser unit will be fixed into wall by a bracket which run under the unit and side fixing back into the wall with heavy duty bolts to secure unit and the unit itself will be fixed to the brackets.

**~VIEW ON ARROW A-A~**

### Impact to surrounding buildings

- The unit itself is located on Ground floor level above the door and below first floor which will not be seen by the surrounded flats looking out the window, see below proposed location.

- The A/C condenser unit will be running during opening hours only to minimise disruption  
Monday - Friday: 10am - 6.30pm  
Saturday: 10am - 6pm  
Sunday: 12pm - 6pm
