Your comments

I have written in before, but seem to have been sent another comments form. I object to the application as a change in height will take away sunlight from the rear of our properties. It is currently called Sunny Mews! We will also be overlooked from above. If the building was to stay the same height and a few more windows were put in on the Railway side then that would be ok.

The parking in the area will become impossible with the influx of visitors to the area, so I assume it would have to be 24 hour controlled parking 7 days a week?

I'm also not sure how they intend to build without having access to Sunny Mews??

We already have HS2 going directly underneath our houses and now we will have this building. What a nightmare!!!

Please continue on extra sheets if you wish
