Dear Camden Council,

**Planning Case References: 2015/1922/P and 2015/2084/L**

I am writing on behalf of The Design Solution, regarding plans to enhance the entrance of Kings Court, Goodge Street.

I understand this is a listed building in a conservation area and I think the proposals will add to the building's grandeur. The plans are certainly in keeping with the high architectural standards expected in Fitzrovia.

On ground level, the current entrance lacks accessibility and has not aged-well since its most recent major upgrade; some thirty years ago.

It is important to respect the character of the local area. After all, it's what makes Fitzrovia unique. By sensitively upgrading buildings within the Charlotte Street Conservation Area, we can keep the best of old and new and ensure the area remains modern, attractive and vibrant; key attributes for a healthy local economy.

Please register my support for this application.

Best wishes,

  
Robbie Gill  
Managing Director
