Existing Lower Ground Floor

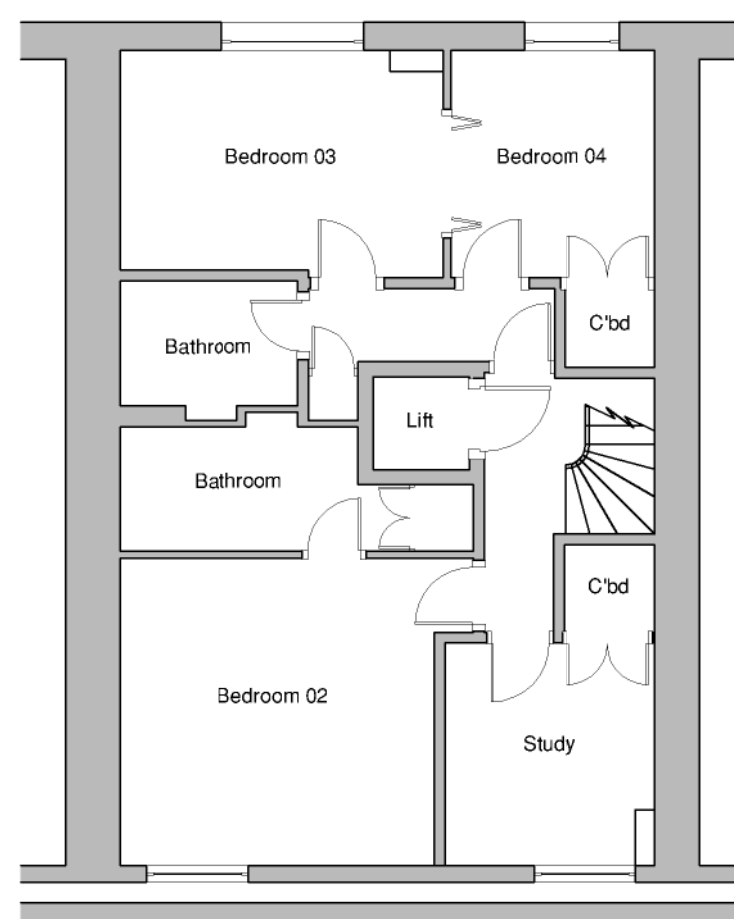

Existing Ground Floor

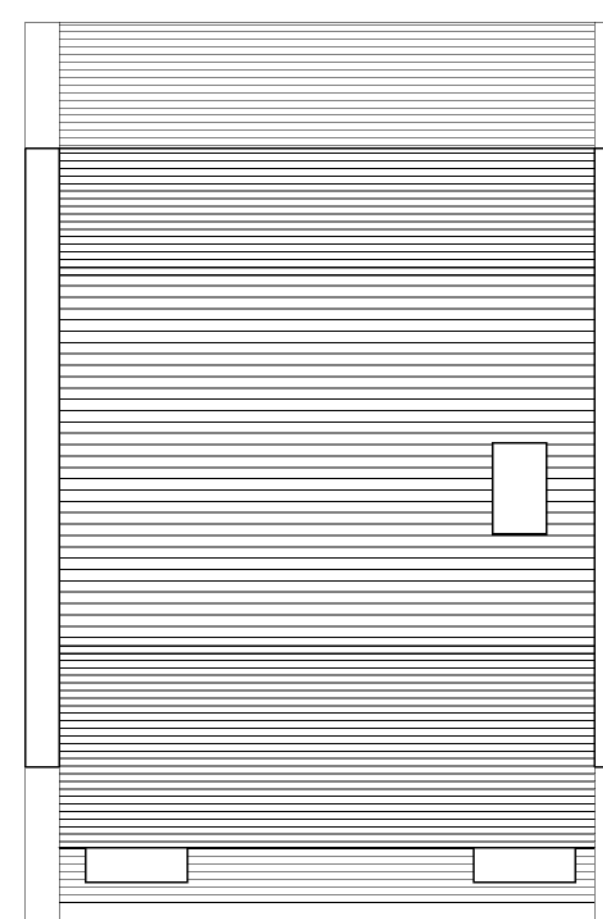

Existing First Floor

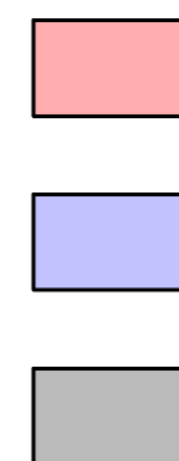

Existing Second Floor

Existing Third Floor

Existing Roof Plan

Existing 1825 front facade, the only original part of the terrace that wasn't destroyed in the second world war bombing.

The extent of the retained front wall varied depending on the bomb damage during the second world war,

Between 1959 and 1961 the terrace was rebuilt to create the floor layout we have today, which included the addition of a passenger lift to each house.
