

## **Proposed works to front garden at 13-15 Upper Park Road NW3 2UN**

### **Green roof to bike store specification and maintenance plan**

#### **Green Roof Type:**

Extensive substrate based modular green roof system by Sky Garden Ltd  
600mm x 400mm pre-planted modules (refer to attached Product data sheet and Modular system detail sheet).

#### **Planting Species:**

12 Sedum species mix as listed in attached product data sheet.

#### **Sedum roof maintenance:**

Spring maintenance

- Feed with sedum fertiliser
- Clear any weeds
- Check drainage outlets are clear

Autumn maintenance

- Remove spent flower heads
- Clear any weeds
- Check drainage outlets are clear

Sedum roof is designed to be low maintenance and drought tolerant. At 1400mm above ground the planting is readily accessible. During extended dry conditions irrigation will be by manual watering.
