#### Informatives:

- 1 Reasons for granting permission

The replacement of the existing barrel sliding door with a single sliding glass panel door is considered to be acceptable in terms of its visual impact. The simple design of the replacement entrance door would not have a significant impact on the character of the original building and would preserve and enhance the appearance of the surrounding conservation area. No harm to the amenity of any adjoining residential occupiers would occur as a result of the development.

Furthermore, the removal of the existing barrel door would improve the access to the site making it a more inclusive environment for everyone, in accordance with Paragraph 9 "Access for all" of Camden Planning Guidance 6 - Amenity.

The sites planning history and relevant appeal decisions were taken into account when coming to this decision, with no objections received prior to making this decision. Special regard has been attached to the desirability of preserving or enhancing the conservation area, under s.72 (CA's) of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policies 7.4, 7.6 and 7.8 of the London Plan 2015, consolidated with alterations since 2011; and paragraphs 14, 17, 56 -66 and 126-141 of the National Planning Policy Framework.
