2014/5539/P	Andy Hickson	37 Falkland Road nw5 2pu	29/04/2015 12:43:13	OBJ	The revised plans don't radically alter those of the original so the objections below still apply -The proposed 3 story building will block sun light and sightlines from 37-41 Falkland Road. -The basement development will undermine the stability of the other buildings in the vicinity in an area already prone to subsidence - Parking is already difficult in Falkland Road despite it being restricted zonal. Another 6-8 flats with potential for 6 or more cars will make it even more so.
