2014/7951/P	Bertrand & Isabelle de Morlhon	Apt 203 - Brinsmead Apartments NW5 3EH	07/05/2015 23:59:07	OBJ	<p>Further to our comments previously lodged when the initial application was made, we would like to reiterate our concerns with regards to the newly proposed design.</p> <p>Our main concern relates to the full glazing of the northern side of the proposed building. At minimum, an obscured design should be considered. Similarly, preventing access to the external space on the northern side should be implemented to prevent further overlooking. Please refer to our previous objection on the matter.</p> <p>It is notable that the overlooking study didn't factor in specifically the northern side of the proposed building and its impact on the privacy of the residents of the Brinsmead.</p> <p>While it may have been an oversight, it would need to be remedied in the final design as suggested here.</p> <p>Best regards,</p> <p>Bertrand and Isabelle de Morlhon</p>
