2015/1567/P	Mrs van den Bosch	170 Maygrove Road Flat 2	02/05/2015 13:55:02	OBJEMAIL	<p>As the plans lodged do not show measurements I am unable to determine whether the works will enlarge the footprint of flat C. Enlargement would block light to rear of our property, and as a terraced house, would significantly impact our light and home environment.</p> <p>Also the proposed roof terrace would overlook all properties to the rear, where noise would carry to all surrounding properties. By way of example it is possible to hear conversation in the rear garden of the opposite property with our windows closed as sound echoes off the properties enclosing the rear gardens. A roof terrace - of which there are presently none - would carry noise to neighbouring homes. In addition flat C underwent recent large scale renovations over a period of months in preparation for sale. We have borne months of scaffolding, dust, and building noise all day and often past midnight and on weekends. The noise disruption for a family with small children was significant and the further proposed works will be an unreasonable interruption to neighbouring homes who have had only a couple of months respite.</p>
