2015/1719/P	AJS Jennings for BCAAC	12-18 Bloomsbury Street	07/05/2015 21:05:46	COMMNT	We strongly object to this proposal. This is the best and most intact of all London Squares. There must be no more tampering with these buildings. The destruction of window openings particularly in the replacement 'mews' building, and any alterations to the pavement vaults are particularly unacceptable. Cooling systems are environmentally unfriendly and unacceptable in principle on historic buildings that were not designed for them.
