2015/1849/P	Vincent Thurgood	Flat B 5 Princess Road London NW1 8JN	02/05/2015 12:31:55	COMMNT	Like the application for a dormer window at 3 Princess Road a few years ago the works on these two flats will create noise disturbance and will set a precedent for building on the roof level flats in the terrace which will be used to justify further improvements by other owners eager to increase the value of their properties and will adversely affect the appearance of the terrace by creating a mismatch between the 'unimproved' flats and the 'improved' ones. This will then be justification for a race to improve by all of the owners in the block. I have lived here since 1999 and would like a wall to be replaced outside the house for about 12 years. It still hasn't happened.
