

Application No:	Consultees Name:	Consultees Addr:	Received:	Comment:	Response:
2015/1965/P	Mr Tom Kordel	Flat C 35 Marquis Road London NW1 9UD NW1 9UD	29/04/2015 20:23:46	OBJNOT	On 14/05/2012 I was granted planning permission for application 2012/1476/P. This was a revised application after my original application, which included access onto the roof of the bay window of Flat B beneath was rejected by the case officer due to the potential for this terrace to overlook the rear of the properties on the northern end of St Augustine's Road. I was effectively left with no option other than to alter the application to only include the skylights that I have installed to the rear of my property. It is for the same reason that my application was rejected that I would like to object to a terrace being included on the first floor flat 2 of the applicants proposals. I would also like to register the same objection to the multiple terraces on flat 3 which for some reason seems to be under a separate application. Anyone standing on any of these 3 terraces will be able to look directly into my bedroom which seems unfair given that my application was rejected for the same reason.
