2015/1968/P	Tom Kordel	Flat C 35 Marquis Road London NW1 9UD	29/04/2015 20:29:23	OBJNOT	<p>On 14/05/2012 I was granted planning permission for application 2012/1476/P. This was a revised application after my original application, which included access onto the roof of the bay window of Flat B beneath was rejected by the case officer due to the potential for this terrace to overlook the rear of the properties on the northern end of St Augustine's Road. I was effectively left with no option other than to alter the application to only include the skylights that I have installed to the rear of my property. It is for the same reason that my application was rejected that I would like to object to terraces being included on the second floor flat 3 or roof level of the applicants proposals. I would also like to register the same objection to the terrace on first floor flat 2 which for some reason seems to be under a separate application. Anyone standing on any of these 3 terraces will be able to look directly into my bedroom which seems unfair given that my application was rejected for the same reason.</p>
