2015/2120/P	Ruth and Ben Richardson	40 Croftdown Road Upper Flat London NW51EN NW5 1EN	10/05/2015 16:59:44	OBJ	<p>We object to the application on the following grounds:</p> <p>a) We live in the upper flat, opposite the rear of no.50 Woodsome Road (which is painted brown at the front and orange at the rear). A dormer window at no.48 would look straight into our main living area</p> <p>b) We are already strongly affected and overlooked by the dormers on each side of no.48 and would not welcome further intrusion</p> <p>c) We do not have any information about the design, materials used and the dimensions of the proposal.</p> <p>Apart from the additional intrusion of a further dormer, the existing dormer's design on house no.50 is not only extremely unsightly, is made of poor choice of materials (i.e. aluminium windows and mixed types of brick in construction) but also does not seem to meet building regulations due to the closeness of the soil stack amongst others.</p> <p>We would also like to use this opportunity to point out, that the balcony at no.50 is of very dubious construction and appears to be inadequately supported on a chimney stack.</p> <p>We would appreciate your comments on these issues because in addition to the visual intrusion, we are fearful of the possibility that the proposed works at no.48 may be as poorly built and designed as at no.50.</p> <p>Thank you and kind regards Ruth and Ben Richardson</p>
