2015/2343/T	Viviana Antinolfi	16 Fawley Road NW6 1SH	11/05/2015 11:42:23	OBJ	I would like to object to the proposal of removing the two apple trees from this neighbouring garden. Not only the trees are beautiful and healthy looking, but they represent a natural and pleasant screen between 15 Lymington and 16 Fawley properties. Removing these trees would create a problem of overlooking not just at ground floor level, but also at first floor level. If any of these two trees need to be removed (in case, for instance, it can be proven that they are not healthy) we would recommend they are REPLACED in the same location with other trees of similar size.
