					being made available for leisure use, and this is much too little.
2015/1444/P	Hyams	16 Boscastle Road	03/05/2015 18:49:17	OBJ	We are very concerned by the likely impact of 21 new dwellings in what is an otherwise quiet residential area which already has considerable traffic problems at peak times - it's a common cut through. Many families live in the neighbourhood and children are relatively safe. This is an important local open space which can be far better utilised.
2015/1444/P	Callum Biggs O'May	48 Laurier Road London	05/05/2015 14:59:58	OBJ	I am staunchly opposed to this proposition. The area provides much needed open space and greenery, and a taller residential block would be a blight on the surrounding houses. Any development should focus on improving the leisure facilities rather than adding excessive residential space. This proposal should not be allowed to pass, and will be opposed by every local resident
2015/1444/P	Philip Burnham	3 Boscastle Road London NW5 1EE	04/05/2015 09:18:25	OBJ	The proposal fails to adequately deal with the fact that the site is designated as leisure and open space. There is no planning basis for converting any of the site to residential use. Despite the description provided by the developers which emphasises publicly accessible open space and tennis facilities, the project is, in fact, a thinly veiled housing-for-profit scheme which clearly exceeds what could possibly be regarded as reasonable. From our experience of having children in local schools, we are keenly aware of the need to retain and enhance any open space that could be utilised as school sports facilities
