Reason:

For the avoidance of doubt and in the interest of proper planning.

Informative(s):

- 1 Reasons for granting permission. [Delegated]

The proposed rooflight to the rear of the property would be slightly larger than the existing rooflight. This would be same design as existing and in keeping with the character and appearance of the conservation area. Such works would have no impact on the amenity of any adjoining occupiers. The frames and glazing bars are the same widths as existing, and the proposed windows would have the same relationship with their reveals and thereby accord with Camden Planning Guidance. As such the proposal is not considered harmful to the character or appearance of the host building, street scene or the Dartmouth Park Conservation Area because of the traditional design and materials proposed.

No objections have been received prior to making this decision. The sites planning history and relevant appeal decisions were taken into account when coming to this decision.

Considerable importance and weight has been attached to the harm and special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.72 (CA's) of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policies 7.4, 7.6 and 7.8 of the London Plan 2015; and paragraphs 14, 17, 56 -66 and 126-141 of the National Planning Policy Framework.
