2015/2197/P	Steve Barber	Sunbury Fitzroy Park London N6 6HX	12/05/2015 10:59:20	OBJNOT	<p>This application does not cover the very important issue of the related CMP - vehicle size, movements etc.</p> <p>Without this - and the impact on Fitzroy Park - it is not really possible to comment.</p> <p>What I would say is that unless proper constraints and controls are put in place for the vehicles to be used and their size, the application should be refused.</p> <p>I would ask you to incorporate my previous comments on the related application to build a new house on the site and, in particular, my comments relating to the CMP which was wrong and misleading.</p>
