Date of Notice : 15 May 2015

Dear Sir

Referring to the above application for the installation of an air conditioning unit on the rear of building 14 Bloomsbury Square.

I would like to recommend that the intended air conditioning unit does not face the enclosed garden area behind that building.

That area is an amphitheatre for sound, and the noise from the proposed air conditioning unit would disturb me and everyone else in Pied Bull Court whose bedrooms face the enclosed garden area.

Yours faithfully  
Alison Wood
