2015/2288/P	kim field	61 arlington road	15/05/2015 12:37:03	OBJ	I strongly disagree with converting this commercial property to residential. Camden is becoming a dormitory to prosperous Westminster. I live in Camden and struggle to find commercial space for my successful and growing business within Camden and will no doubt soon have to move my business out of Camden as you continue to allow commercial properties to be converted into residential. At a time when financial returns for developers are better for residential than commercial, it is the responsibility of the council to ensure a healthy, balanced mix of commercial and residential use. The future of the borough is in your hands - don't make a decision which everyone in Camden with regret forever. Once that block is converted into flats on long leases, it can never be returned to commercial use.
