H. FULL STATEMENT OF CASE

The full statement of case is set out in

the box below

The Planners of the site and surroundings was incorrect.

"Design Grounds"

Planners stated that 12 to 14 "contain the best surviving examples of original mews" - by reference to the photographs submitted with the application you will see that the elevation of number 12 is quite different design and age to numbers 13 & 14, it built with Fletton brickwork, it is higher than 13 & 14 , it has different fenestration, access doors and fascias, each of the three houses have very different front elevations and in my opinion number 12 is a very different vintage to the other two.

By reference to photos submitted and Google Earth (for a complete view), you will see that the roof pattern of 13 & 14 has a single ridge and 12 has 2 ridges with a valley in the middle of the house, none of the roofs are visible from mews street level. It is most unlikely that you can establish that the three roofs are "unaltered", the various existing roof hatches and skylights of the roofs you refer to continue the random and inconsistent design of the rest of the terrace.

There is no proposal to change the front elevations, the proposals submitted are set well back from the front elevation and only minimally visible from the street.

"Amenity"

Reference to the "outlook" of numbers 11 and 12, both houses are fully built on at ground level (no back garden), number 11 has a two storey extension in the back garden, so the main loss of amenity would be at the third level above the ground: roof extensions on the west side of Doughty Mews which have a similar amenity relevance to the surrounding houses to the north and west have recently been approved.
