The Council has considered your application and decided to grant permission subject to the following condition(s):

Condition(s) and Reason(s):

- 1 The development hereby permitted must be begun not later than the end of three years from the date of this permission.

Reason: In order to comply with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 All new external work shall be carried out in materials that resemble, as closely as possible, in colour and texture those of the existing building, unless otherwise specified in the approved application.

Reason: To safeguard the appearance of the premises and the character of the immediate area in accordance with the requirements of policy CS14 of the London Borough of Camden Local Development Framework Core Strategy and policy DP24 of the London Borough of Camden Local Development Framework Development Policies.

- 3 The development hereby permitted shall be carried out in accordance with the following approved plans: Site Location Plan and Block Plan, 471-PA.04 Rev P1, 471-PA.08 Rev P1, 471-PA.09 Rev A, 471-PA.10 Rev A, 471-PA.11 Rev A, 471-PA.12 Rev A, and Design and Access Statement Rev A

Reason:

For the avoidance of doubt and in the interest of proper planning.

- 4 The hereby approved flat roof shall not be used as a terrace area unless otherwise approved in writing by the local planning authority.

Reason: In order to prevent overlooking of neighbouring premises in accordance with the requirements of policy CS5 of the London Borough of Camden Local Development Framework Core Strategy and policy DP26 of the London Borough of Camden Local Development Framework Development Policies.

Informative(s):

- 1 Reasons for granting permission:

The proposed extension is considered to be subordinate to the scale of the host building and has been sympathetically designed so as to respect the integrity of the host and surrounding properties. The proposed extension will not form an alien feature within the surrounding as similar extensions have been recently approved at neighbouring properties. The materials to be used are sympathetic to the host building, the style of the extension is generally in keeping with the host building and the location of the extension in the rear garden means the development would not be visible from the public realm.

Although the extension shall take up outdoor amenity space, an adequate area of garden space will be retained.

The proposed extension with its modest depth is set away from the boundaries and is separated from the boundary to ensure that the proposal would not have an unacceptable impact on the solar access, privacy, outlook, or enclosure of adjoining and nearby properties. No side facing windows are proposed and the existing fence will be retained ensuring that the proposal would not affect the amenity of any adjoining and nearby properties.

Objections have been received in relation to this application citing several issues, and these have been summarised in a separate consultation summary document. The site history and relevant appeals have been taken into account. The subject property is not within a conservation area and nor is the building listed or within the setting of a listed building.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policies 7.4, 7.6 and 7.8 of the London Plan March 2015 consolidated with alterations since 2011; and paragraphs 14, 17, and 56-66 of the National Planning Policy Framework.
