BRIEF DESCRIPTION

This Design & Access Statement has been produced by CMC Projects LLP on behalf of WHSmith Europe Travel LTD, to accompany a planning application for external roof level plant.

The proposal comprises the installation of 3no. new heat pump units, with associated enclosures at roof level. Further details and specification have been set out in the accompanying application, drawings and acoustic report.

The proposal does not create additional floor space or alter the scale of the existing WHSmith.

Please refer to the Noise Assessment Statement, prepared by Sound Solutions Ltd. for further information.
