2015/2303/P	Alan Fox	15 Makepeace Avenue N6 6EL	20/05/2015 11:13:51	COMMNT	Regarding west side dormer , I would prefer a hipped (back-sloping) style roof (as is currently in place) rather than the vertical gable end shown on the plan, which I consider to be too bulky , and out of keeping with the style of adjacent properties.
