2015/2300/P	Suellen Walker	55 Hatton Garden	21/05/2015 17:25:44	OBJ	<p>I can see no necessity for a glazed aperture at the rear of the building which would overlook a large number of residential properties, including my bedroom windows.</p> <p>It is not clear if the proposed equipment for controlling CO2 emissions will increase existing noise levels from this building, and if so at what hours of the day this would occur.</p> <p>I am also concerned that the Block Plan lists the address as 55 Hatton Garden. This is a significant mistake, that raises concerns about the care taken with the drawings.</p>
