2015/2356/P	Sandy Nairne & Lisa Tickner	43 Lady Somerset Road London NW5 1TY	22/05/2015 21:37:35	COMMNT	As immediate neighbours at 43 Lady Somerset Road, we have a strong objection to the proposed changes and additions to the roof of number 41. When our own application for a dormer window was rejected by Camden in the 1990s we submitted an alternative design that gave us less space, but a small indented balcony entirely within the profile of the roof slope. We value this, and the proposed new dormer window at number 41 would effectively abut it, just the other side of the dividing parapet, blocking out the view in that direction. A second concern is that the scale and bulk of the proposed dormer, as large as can be fitted on that side of the roof, is out of keeping with others locally and with that on the other (east) side of 41.
