2015/2366/P	Dr Sylvestre Burgos	6 Belsize Square Flat 2	26/05/2015 23:02:02	OBJ	<p>I strongly believe that having a six storey building in this particular place would disfigure the area. Architecturally, Belsize Park is arguably one of the most impressive residential areas of North London and also one of the few areas that have been mostly preserved in their original condition. The area's distinctive style is so remarkable that recent houses built in the area (42-45 Belsize Park, completed this year) have been built to look just like the original 1860s buildings of the surrounding streets. Not only would the construction of a six storey building be a major nuisance for residents like me whose view would be significantly altered, but more importantly it would also cause major harm to a historically significant part of Camden. Work obligations will prevent me from attending committees but I very much hope such an unreasonable construction project will not take place.</p> <p>Best wishes, Sylvestre Burgos</p>
