CGI view of completed 'XY' Maiden Lane development from north

Blocks I & H, under construction, are the northernmost blocks fronting York Way – these will largely close off the view of the eastern end of St Paul's Mews from York Way.

In this photo, the existing rear dormer at 4 St Paul's Mews is under construction at the western end of the mews, and is shrouded by scaffolding.

Views of existing rear dormer at 4 St Paul's Mews, as seen from road level in St Paul's Crescent
