

01/06/2015

Hi there,

I would like to formally object to the planning application involving the disruption to Air Studios.

As a composer / producer I can verify that it is increasingly difficult to find good work spaces when and where we need them, and the loss of this facility will put an undue strain on our already strained sector at large.

Furthermore it seems entirely selfish and wholly un-economic that the business activities that Air undertakes, often employing up to a hundred people a day, should be jeopardised by a small family who aren't prepared to walk 100 yards to the local public swimming pool.

I trust you will see sense and decline permission for their plans.

Kind regards,

Tristin
