

31/05/2015

Dear Mr Tulloch

As a musician who works at Air Studios very frequently I would like to add my strong objection to the proposed development listed on planning application 2015/2089/P.

From Bond movies to Batman, George Michael to Coldplay, Air Studios has provided a key venue for world class recording facilities since the 1990's - one of only 2 large scale venues left in London - the other being Abbey Road. They are recognised world wide for their work. The importance of both studios being able to continue their work cannot be overstated; if Air Studios were unable to operate for 6 months or so it would be catastrophic for the music business in this country.

Regularly, day after day, because of the existence of this studio, employment is provided for hundreds of musicians and our status as world class musicians providing world class product is daily reinforced by the talent of the recording engineers employed there.

Please, I urge you, do take this into account when considering this application.

with best wishes

Jill Streater
