Andrew Hunt

Dear Mr Tulloch

I'm writing to you to express my objection to the proposed development and application for planning permission by the neighbours of AIR Studios, Lyndhurst Hall, Lyndhurst Road, Hampstead, London. NW3 5NG.

The extensive underground development to their property would massively disrupt the business of the studio. The nature of recording is the use of extremely sensitive equipment.

The studio would not be able to operate whilst the work is going on.

Studios of this nature are limited in this day and age and if work goes ahead, suspending AIR Studios operation, this would not only affect the studios business directly but also the business of all the clients who use the studio.

I ask that you decline the planning proposal.

Yours sincerely

Andrew Hunt
