2015/2229/P	Legmann	36 Fitzjohns Avenue Flat 1 NW3 5NB NW3 5NB	29/05/2015 10:45:46	OBJ	<p>As Fitzjohn's Avenue residents we have serious concerns about this new proposed development for the following reasons:</p> <ul style="list-style-type: none"> - the building is modern and not in keeping with the area - it is creating twice as many levels as existing house and extends southwards, would most likely be visible from most surrounding houses, with flats and terraces directly overlooking on to neighbouring gardens - the excavation necessary for 2 basement levels brings a high risk of increased subsidence to all neighbouring houses
2015/2229/P	Fiona Bruce	27 Daleham gdns	01/06/2015 09:05:16	OBJ	<p>I wish to object to this application in the strongest possible terms . This proposed block of flats will utterly compromise the privacy of my back garden - as well as that of my neighbours . In particular the size of the building and the terraces will mean that my garden is overlooked in an oppressive and intrusive manner . My enjoyment of my garden will be utterly compromised .</p> <p>In addition , the proposed architecture is entirely out of keeping with the houses around it in Daleham Gdns , Fitzjohn's Avenue and Nutley Terrace which have mostly preserved their historical appearance . The scale of the building is of great concern . Not only is it extremely large , it would also be situated on a hill at the highest point above Daleham Gardens , which will make it appear even higher and more overbearing than it already is .</p> <p>Finally , works of the scale proposed in this application will horribly disrupt the peace and tranquillity of my home and garden (as well as that of my neighbours) for a considerable time .</p> <p>I urge you to turn down this application . I honestly believe it would ruin my treasured oasis of peace and privacy .</p>
