2015/2469/P	Michael Turoff	61 Princess Road	01/06/2015 11:54:15	COMMEMP ER	<p>I object to this planning application.</p> <p>I am concerned the rear extension should not extend any further into the garden than it already does, and should conform to all the neighbouring properties.</p> <p>There is one exception which does have an unfortunate extra long rear extension at 18 Edis St, which makes the rear garden of that house very crowded, and blocks the light coming into the adjacent gardens. I am concerned this extension will do the same to its neighbouring gardens.</p> <p>I am also concerned about the double height window (it's not clear how the existing double height window was allowed)-- my architect put in a similar application in 2000, which was disallowed because it was not consistent with the surrounding houses.</p>
