2015/2390/P	Mercedes Feldman	Flat 5 71 Greencroft Gardens	02/06/2015 09:40:14	OBJ	We were told that this will be a replacement garden shed but what has been erected in the last two days is a very large, tall building with a very tall glass door presumably for light purposes which directly overlooks our bedroom in Flat 5 and for any privacy we will need to constantly close our curtains. This is going to be used as an office/workroom which further may disturb our peace and quality of life.
