2015/2355/P	Terry Sammons	16 Gloucester Crescent	03/06/2015 12:08:05	OBJ	The canopy is large, and will change the way the playground is currently used. The side is an unattractive green and reads as a solid structure from our garden and house. It has a severe impact on our home and garden. A smaller structure more in keeping with the architecture would be appreciated. A white or light grey colour would lessen the impact.
