2015/3076/P	John Berlyne	27 Clarence Gardens London NW1 3LH	08/06/2015 20:39:36	OBJ	<p>Your letter received today inviting comment on this planning application has brought me to this web page. I find it frustrating that the web page offers so little detail on the proposal - no more in fact, than the letter itself. How is this work and the results of this work likely to effect residents? How long will the works last?</p> <p>There is a link above that apparently allows me to see "The Site Plan for this application" - but the link is dead. It takes one to a page that shows no site for application.</p> <p>Because - in spite of the legal requirement to do so - Camden has not in any way provided adequate detail of this planning application, I cannot assess with any accuracy whether I am in favour of it or not. Without proper details of the application, I have no option but to object. Camden should make this consultation *meaningful* rather than cursory.</p>
