The tenants have completely ignored all enforcement by the local council and continued to operate illegally as a Hot Food Kebab shop. We cannot open front or back windows because of the constant odour of kebabs and garlic. They have intimidated local residents and shops to sign petitions. I would like to attend committee with the details of this case. And also ask you to investigate why the Council Planning Officers have failed to instigate their enforcement notice of February 2014 - sent to us in writing.
