2 June 2015

Dear Sir

DECISION

Planning (Listed Building and Conservation Areas) Act 1990

Listed Building Consent Granted

Address:

SOAS
10 Thornhaugh Street
London
WC1H 0XG

Proposal:

External alterations to the eastern elevation including the removal of ramp to eastern elevation at ground floor level and associated rebuilding of missing section of brick boundary wall, installation of new security fencing and gates, and alteration to existing metal window at lower ground level to form a door.

Drawing Nos: Site location plan; 140710 L (0)01A; L (0)02 C; L(0)03 B; L(0)04A; L(0)07; heritage statement design and access statement.

The Council has considered your application and decided to grant Listed Building Consent subject to the following conditions:

Conditions And Reasons:

- 1 The works hereby permitted shall be begun not later than the end of three years from the date of this consent.

Reason: In order to comply with the provisions of Section 18 of the Planning (Listed

Buildings and Conservation Areas) Act 1990.

- 2 All new work and work of making good shall be carried out to match the original work as closely as possible in materials and detailed execution.

Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy CS14 of the London Borough of Camden Local Development Framework Core Strategy and policy DP25 of the London Borough of Camden Local Development Framework Development Policies.

- 3 The works hereby approved are only those specifically indicated on the drawing(s) referred to above.

Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy CS14 of the London Borough of Camden Local Development Framework Core Strategy and policy DP25 of the London Borough of Camden Local Development Framework Development Policies.

Informative:

- 1 Reasons for granting listed building consent:

The proposed removal of the non-original escape ramp and rebuilding of the missing section of perimeter wall will improve the building's appearance and setting. Replacing a metal framed window at lower ground level with a single leaf metal framed door will not have a detrimental impact on the building's appearance or character, nor will the installation of taller metal fencing at lower ground level, as this will not be readily visible.

No historic or otherwise significant fabric will be lost or affected by the proposal, and the materials, finish and detailed design of the proposed interventions are considered acceptable. The proposal is therefore considered to preserve the building's character, appearance and special architectural and historic interest.

The site's planning history was taken into account when coming to this decision. No representations were received as a result of consultation.

Special regard has been attached to the desirability of preserving the listed building and its features of special architectural or historic interest, under s.16 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposal is in general accordance with policy CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policy DP25 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policy 7.8 of the London Plan March 2015, consolidated with alterations since 2011, and

paragraphs 14, 17 and 126-141 of the National Planning Policy Framework.
