Cllr Phil Jones
Camden Town Hall
Judd Street, London
WC1H 9JE

Councillor Jones,

Please vote in favour of the proposals to expand St. Anthony's School into an adjacent building on Arkwright Road.

As it currently stands, children have to cross from the building on Fitzjohn's Avenue to the Arkwright Road campus for playtime/lunchtime. This new application will allow the school to set up two standalone campuses negating the need for the regular crossings. I hope you will agree this is much needed.

Many thanks

CC: LB of Camden planning department

Dear Ms Headlam-Wells,

I write as a member of the public who is concerned at the lack of school places in this borough. Camden Council has made great strides in this area but there is still much work to be done. By granting planning permission for St Anthony's School in Hampstead to add another 140 places by opening in the building next door to its building in Arkwright Road you will be making another step in addressing this issue; please consider giving it your full support.

Warm regards,

Dear Meric,

I write as a resident who wants to see children and young people in Camden given the best possible start in life. I would like to add my name to the list of supporters for St Anthony's School to open a new school in Arkwright Road, West Hampstead because it will free up more school places for other young people. I hope you will do all in your power to help see this worthwhile scheme through.

With best wishes,

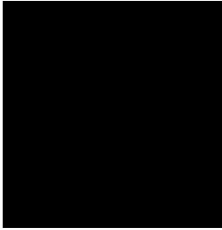

Cllr Claire-Louise Leyland

Dear Cllr Leyland,

Having heard about the shortage of school places in Camden the council should do everything it can to create new school places. That is why I hope you will support the planning application for St Antrhony's School to open an extension in Arkwright Road when it comes before you at planning committee.

Dear Cllr Headlam-Wells

As Chair of Children and Schools Scrutiny Committee you are no doubt aware of the very pressing need for new school places in the borough of Camden. That is why I am compelled to write to you in support of plans by St Anthony's School, Hampstead, to add more than 100 new places by opening up a new school for girls in an adjacent building. These places will no doubt help alleviate the huge demands on our primary schools and give more parents the chance to get their youngsters into the nearest school. I hope the scheme merits your support.

With best wishes,

Sent to Camden Council Planning Policy Office

Councillor Heather Johnson
Camden Town Hall
Judd Street,
London
WC1H 9JE

Cllr Johnson,

As a local resident with an interest in seeing our young people get the best start in life I hope the council will do all it can to encourage successful schools to grow. I have read that St Anthony's School in Camden would like to open a new school next to its current premises and this strikes me as an excellent idea. Yes the places may be at a private school but many of their pupils come from the borough of Camden and as such any additional places will have the added benefit of helping to relieve pressure on our state sector. All this without the huge disruption and delay of building a school from scratch. Please join me in giving this project your support.

Dear Cllr Leyland,

I have heard about plans for St Anthony's School, a private school in Hampstead to open a school in a neighbouring building. I hope that you will seriously consider supporting these plans because it will help to ease the burden on primary schools in the area.

Yours,

COPIED TO CAMDEN COUNCIL PLANNING

Dear Mrs Shah,

I write to give my support for more educational provision in Camden. As you will be aware, primary school places are at a premium. St Anthony's School in Hampstead proposed to create an additional 140 places for girls at its independent school by opening in a new building neighbouring its current school in Arkwright Road. I hope you will recognise the clear benefit of this plan and grant it permission when it comes to committee.

Warm regards,

CC PLANNING CONTROL, CAMDEN COUNCIL

Linda Morrison
