Informative(s):

- 1 Reasons for granting permission.

The proposed flush fitting rear and side facing roof lights are considered to be acceptable in terms of their size and design and would maintain the character and appearance of the property. The installation of the new windows and replacement dormer window would not lead to any increased levels of overlooking to the neighbouring properties and the proposal is considered not to be harmful to any neighbouring occupiers in terms of outlook and impact on sunlight and daylight.

The application received one comment from the neighbouring property at 364 Finchley Road, and the issues raised were carefully considered prior to making this decision. The sites planning history and relevant appeal decisions were taken into account when coming to this decision.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policies 7.4, 7.6 and 7.8 of the London Plan 2015, consolidated with alterations since 2011; and paragraphs 14, 17, 56 -66 and 126-141 of the National Planning Policy Framework.
