GENERAL NOTES:
1. The client is responsible for ensuring that all elements of the building and its contents are in accordance with the Building Regulations and all other relevant legislation.
2. The client is responsible for ensuring that all elements of the building and its contents are in accordance with the Building Regulations and all other relevant legislation.
3. The client is responsible for ensuring that all elements of the building and its contents are in accordance with the Building Regulations and all other relevant legislation.
4. The client is responsible for ensuring that all elements of the building and its contents are in accordance with the Building Regulations and all other relevant legislation.
5. The client is responsible for ensuring that all elements of the building and its contents are in accordance with the Building Regulations and all other relevant legislation.
6. The client is responsible for ensuring that all elements of the building and its contents are in accordance with the Building Regulations and all other relevant legislation.
7. Where works involve demolition to ensure that all elements of the building and its contents are in accordance with the Building Regulations and all other relevant legislation.
8. Works carried out under a building notice or prior to approval of drawings are at the client's risk. (All DPL drawings must be approved before works commence.)
9. Any dimensions, either between walls and site dimensions or between the drawing and other consultant's or supplier drawings, should be brought to the immediate attention of DPL before executing the structural, mechanical and electrical works. This includes types of materials if not stated on drawings or not noted which is on drawings or not noted on drawings or not noted on drawings or not noted on drawings.
10. All of DPL structural designs are subject to findings being 1m deep, if however the client requires a different depth, this should be noted on drawings or not noted on drawings or not noted on drawings or not noted on drawings.
11. All walls which have been designed to be removed on plans are to be checked on site by building control inspector/builder for load bearing or non-load bearing status before purchase of steel/s. If non-load bearing then steel/s should not be ordered. No refund or claim can be given against DPL on the design/modifications changed for these steel/s.

PLANNING NOTES:
1. All new proposed road and wall finishes on this drawing to match existing moderns.
2. All new proposed heights shown on this drawing will be designed not to protrude more than 150mm from the existing roof profile.
3. All proposed development, other than the design of the building, are designed to be non-opening and of obscure glazing.
4. For a permitted development lot design the design of the building is confirmed from the design of the building.
5. All works to be carried out in accordance with the latest appropriate codes of practice and to comply with current building regulations.
