I support the application (please state reasons below) ✓

I object to the application (please state reasons below)

Your comments

I support the application for the reasons stated below:

- a) More people needed to be housed
- b) People who needed more rooms in the flats would be given opportunity to be rehoused.
- c) This is going to be built inside the centre of NUS and nearer to the train station, people will be happy if they are housed there.

I object to the application (please state reasons below) neither
it's a concern.....

Your comments

I have a concern about the proposed development on site of Barrington Close Boiler house. The drains from Barrington Close Block (1-12) pass by the Boiler house and join the THAMES water drains at entrance to Barrington Close. These have been surveyed a number of times by Council over past 22 years I have lived here. The drains regularly block and flood Barrington Close. The survey reveals problems with the drain which are going to be made worse if the drains from
Pro

the proposed development are fed into
the existing drains.

I would like to suggest the new
development has separate drains laid
to the main drain in Grafton Rd and
if possible the existing drain in
Barrington Close repaired whilst the
work is being carried out.

When it rains heavily the Close floods
and water backs up into our sinks
in the kitchen we get foul smell in
the kitchen and the water in the
Close remains for days.

Thank you
