Planning Application Ref 2015/2182/P

Address

29 Prince of Wales Rd
London
NW5 3LH

15th June 2015

I am the freeholder of the Ground floor flat at 33 Prince of Wales Rd
I live with my husband Michael Andrew and we are objecting to the latest planning application on the following grounds

1. We have suffered a prolonged period of disruption in terms of noise and parking restrictions. Building work has been carried out over the past 14 months and promises to continue for at least another year.
2. Cracks have appeared in our property which are coterminous with the start of the building work.
3. The planning history is difficult to follow but we understand that the original application was for a family home with a basement, but it would now appear that the recent May 2015 application is for a change of use to 4 separate dwellings with a very large basement. This will change the character of the building.
4. The work carried on outside the legally permitted hours. It has been heard on Saturdays after 13.00 and occasionally on a Sunday.
5. This stretch of Prince of Wales Rd is a residential area with many older residents who have been settled in Camden over many decades. This type of building work is becoming all too common an intrusion into a normal and settled way of life.
6. The proposed rear extension is out of scale item the backs of the terrace and the basement area is overlarge.
