2015/2727/P	Michael Citron	Penthouse A 1b King Henrys Rd London NW3 3QP G3 7RH	22/06/2015 18:50:43	COMNOT	I strongly object to any of the windows at the rear of 113 Regents Park Rd that have line of vision to flats in King Henrys Rd having clear glass as it is an invasion of privacy to existing bedrooms and balconies. I am concerned regarding the car parking as drawn as there should be access to the flats with gardens and the shops for refuse.

2015/2727/P	Dr Catherine Horwood Barwise	6 Emerald House 1c King Henry's Road London NW3 3QP	20/06/2015 17:01:43	COMMEMP ER	My husband and I live in Emerald House facing the rear of this building. While we do not object in principle to this change of use, we are concerned about any changes to the visual aspect of this building. At the moment the windows of the offices are frosted since we and any other residents of both Emerald House and The Chesterfields would otherwise have a clear view straight into these offices and washroom areas. We would not want to see any design changes made to structure or windows at the rear of this building which has a significant history in Primrose Hill.
