2015/2340/INVALID	Anthony Hayble	FLAT 5 32 - 34 Swinton Street London WC1X 9NX	19/06/2015 13:50:39	COMMNT	I am opposing this application because they have had major works on this site before and it lasted for some weeks and they were very disruptive. Swinton Street is usually a peaceful area. I just live very close to the building because I live at 32 - 34 Swinton Street with my room been directly joined to the site which would therefore make me most affected by these major works. The volume of noise would be so much unbearable especially as the works could take lots of hours daily and months to complete. The main pavement walk would be closed to pedestrians and I will have to be crossing the busy road which is very difficult
