Supplementary Comments

Whilst CFA piling techniques have been specified, which are preferable, Thames Water have a critical sewer in close proximity to the development site and as such, this condition cannot be discharged until all parties are satisfied that the proposed works will have negligible impact on these assets. Please submit a detailed piling layout plan in relation to Thames Water assets and the local topography so that we can ensure the correct easements are met. Please contact Developer Services if you wish to discuss further or request plans of our apparatus in the area (0845 850 2777 or by email at developer.services@thameswater.co.uk or heather.purshouse@thameswater.co.uk). Please use the following reference in all future correspondence: DTS 46539.

Yours faithfully
