3. Description of Proposed Works

Please describe the proposed works:

We seek planning consent to remove the current timber panelling and replace it with a weather resistant fibre cement cladding panel, painted to match the current cladding.

We also want to change timber cills, and replace them with aluminium cills and copings. As all the openable window/doors are already in aluminium and all timber elements are painted white or cream, we believe we can do these changes without major changes to the external appearance to the building.

Has the work already been started without planning permission? Yes No
